1. PURPOSE

The purpose of this Human Rights, Child Labour, and Forced/Bonded Labour Policy is to establish a comprehensive framework through which Promise Gold Refinery FZE ensures that its operations, business relationships, and gold supply chain activities are conducted in a manner that fully respects internationally recognized human rights standards and is free from child labour, forced labour, bonded labour, human trafficking, and all forms of labour exploitation.

As a gold refinery operating within the precious metals sector in the United Arab Emirates, Promise Gold Refinery FZE recognizes that the upstream mining and precious metals supply chain may present elevated risks relating to labour exploitation, unsafe working conditions, human rights abuses, and unethical labour practices if not adequately governed and monitored. These risks may arise particularly within artisanal or small-scale mining environments, high-risk jurisdictions, or complex supply chains where labour protections and regulatory oversight may be limited.

Promise Gold Refinery FZE is firmly committed to conducting its business activities in a responsible, ethical, and transparent manner that protects the dignity, safety, and fundamental rights of all individuals involved in its operations and supply chain. The Company maintains a zero-tolerance approach toward child labour, forced labour, bonded labour, debt bondage, involuntary servitude, human trafficking, and any other form of labour exploitation.

This policy establishes the Company's commitment to ensuring that all employees, suppliers, contractors, intermediaries, transport providers, and other business partners associated with Promise Gold Refinery FZE operate in accordance with internationally recognized human rights principles and applicable regulatory requirements. The Company expects all parties engaged in the sourcing, transportation, trading, or processing of gold to adhere to the same ethical standards and to ensure that their activities do not contribute to or benefit from any form of labour exploitation or human rights abuse.

In particular, Promise Gold Refinery FZE seeks to ensure that:

- no child labour is used at any stage of its operations or supply chain;
- no form of forced, bonded, or involuntary labour is tolerated;
- workers are employed voluntarily and are free to terminate employment in accordance with applicable labour laws
- workers are treated with dignity, fairness, and respect and are not subjected to coercion, intimidation, or abusive practices; and
- safe and lawful working conditions are maintained in accordance with applicable labour and human rights standards.

This policy forms an integral part of the Company's Responsible Sourcing and Supply Chain Due Diligence Framework, and supports its compliance with applicable regulatory requirements governing gold refineries operating under the supervision of the UAE Ministry of Economy. The policy also aligns with internationally recognized standards and guidance, including the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, the United Nations Guiding Principles on Business and Human Rights, and relevant International Labour Organization (ILO) conventions relating to child labour and forced labour.

Promise Gold Refinery FZE seeks to strengthen transparency, accountability, and ethical governance across its operations and supply chain, and to ensure that the gold processed within its refinery is sourced responsibly and without contributing to human rights violations or labour exploitation. The Company

remains committed to continuously identifying, assessing, and mitigating human rights risks within its operations and supply chain and to taking appropriate corrective actions where violations are identified.

2. SCOPE AND APPLICABILITY

This Human Rights, Child Labour, and Forced/Bonded Labour Policy applies to all operations, activities, and business relationships associated with Promise Gold Refinery FZE. The policy establishes mandatory human rights standards that must be observed by all individuals and entities involved in, or connected to, the Company's operations and precious metals supply chain.

The provisions of this policy apply to all persons working for, representing, or acting on behalf of Promise Gold Refinery FZE, including but not limited to:

- Directors and Senior Management, who are responsible for promoting a culture of respect for human rights and ensuring that appropriate governance, oversight, and compliance mechanisms are implemented.
- All employees, including permanent, temporary, part-time, contractual, and outsourced personnel engaged in the Company's operational, administrative, or support functions.
- Suppliers of doré gold, recycled gold, and scrap gold, who provide precious metal feedstock to the refinery.
- Mining companies and upstream gold producers, including industrial mining companies, artisanal mining operations, and other entities involved in the extraction or initial processing of gold supplied to the Company.
- Gold traders, aggregators, and intermediaries, who participate in the procurement, trading, or supply chain distribution of gold and precious metals.
- Logistics and transport providers, including security companies, freight forwarders, custodial service providers, and transport contractors responsible for the movement, handling, and storage of precious metals.
- Contractors, consultants, and service providers, including entities engaged to provide technical, operational, advisory, or professional services to the Company.
- Any third party acting on behalf of the Company, including agents, brokers, representatives, and intermediaries involved in commercial or operational activities.

This policy applies to all stages of the precious metals supply chain, including activities related to:

- sourcing and procurement of gold
- mining and upstream supply chain activities
- transportation and logistics of precious metals
- refining and metallurgical processing operations
- trading and commercial transactions involving gold and other precious metals

Promise Gold Refinery FZE expects all individuals and entities within the scope of this policy to operate in a manner that respects human rights and strictly prohibits child labour, forced labour, bonded labour, debt bondage, human trafficking, and any form of labour exploitation.

Suppliers and business partners are required to comply with the standards established under this policy and may be subject to supply chain due diligence, compliance assessments, and monitoring procedures implemented by the Company. Where violations of this policy are identified, Promise Gold Refinery FZE may require corrective actions, enhanced due diligence, suspension of transactions, or termination of the business relationship where appropriate.

Promise Gold Refinery FZE seeks to ensure that all activities associated with its operations and supply chain are conducted in accordance with internationally recognized human rights standards and applicable regulatory requirements governing responsible sourcing of gold.

3. DEFINITIONS AND GLOSSARY

Term	Definition
Human Rights	Fundamental rights and freedoms inherent to all individuals, including the rights to dignity, equality, freedom, and safe working conditions as recognized under international frameworks such as the Universal Declaration of Human Rights and the UN Guiding Principles on Business and Human Rights.
Child	Any individual under the age of 18 years, as defined by international human rights standards and the conventions of the International Labour Organization (ILO).
Child Labour	Work that deprives children of their childhood, potential, dignity, or education and that is harmful to their physical or mental development. This includes employment below the legal minimum working age or hazardous work performed by children.
Hazardous Child Labour	Work that is likely to harm the health, safety, or morals of children, including exposure to dangerous machinery, heavy labour, toxic substances, underground mining, or unsafe working environments.
Forced Labour	Any work or service performed under threat, coercion, intimidation, or penalty and for which the individual has not offered themselves voluntarily.
Bonded Labour	A form of forced labour in which a person is compelled to work to repay a debt or financial obligation under exploitative conditions that restrict the individual's freedom.
Human Trafficking	The recruitment, transportation, transfer, harbouring, or receipt of persons through force, fraud, or coercion for the purpose of exploitation, including forced labour.
Labour Exploitation	Situations where workers are subjected to unfair, abusive, unsafe, or illegal labour conditions that violate labour laws or human rights standards.
Responsible Sourcing	The process of ensuring that gold and other precious metals are sourced in a manner that respects human rights, avoids conflict financing, and complies with international due diligence standards.
Supply Chain	The network of organizations, individuals, activities, and processes involved in the extraction, transportation, refining, and trading of gold and other precious metals.
CAHRA	Regions characterized by armed conflict, weak governance, or widespread human rights abuses that may increase the risk of exploitation or illegal activities within the supply chain.
Due Diligence	The ongoing process through which Promise Gold Refinery FZE identifies, assesses, prevents, mitigates, and addresses risks related to human rights violations or unethical practices within its operations and supply chain.
Grievance Mechanism	A formal system that enables employees, suppliers, contractors, or stakeholders to report concerns or complaints related to human rights violations or labour exploitation.
Remediation	Actions taken to address and correct human rights violations or labour abuses and to prevent their recurrence.
Compliance Officer	The designated individual responsible for overseeing the implementation of compliance policies, including responsible sourcing and human rights protections.
Incident	Any event or allegation involving potential violations of human rights, labour standards, or ethical practices within the operations or supply chain of Promise Gold Refinery FZE.
Investigation	The formal process conducted by the Company to review reported incidents, verify facts, and determine appropriate corrective actions.
Corrective Action	Measures implemented to resolve identified violations or risks and prevent recurrence.
Whistle-blower	An individual who reports suspected wrongdoing, misconduct, or violations of policies within the organization or its supply chain.
Artisanal and Small-Scale Mining	Informal mining activities typically carried out by individuals or small groups using limited mechanization, often associated with higher labour and human rights risks.
Doré Gold	Semi-refined gold alloy produced from mining operations that requires further refining to reach high purity levels.
Recycled Gold	Gold recovered from previously used materials such as jewelry, electronics, or industrial products and reintroduced into the refining process.
Chain of Custody	The documented sequence of custody, control, transfer, and verification of gold throughout the supply chain from origin to final refining.

Supply Chain Traceability	The ability to track and verify the origin, movement, and processing of gold throughout the supply chain.

4. REGULATORY AND INTERNATIONAL FRAMEWORK

Promise Gold Refinery FZE implements this Human Rights, Child Labour, and Forced/Bonded Labour Policy in alignment with applicable UAE laws, Ministry of Economy regulatory requirements, and internationally recognized human rights and responsible sourcing standards. The Company recognizes that respecting human rights and preventing labour exploitation within the precious metals supply chain requires adherence to both domestic legal obligations and globally recognized frameworks governing ethical business conduct.

Accordingly, Promise Gold Refinery FZE conducts its operations and supply chain activities in accordance with the following regulatory and international standards.

UAE Regulatory Framework

Promise Gold Refinery FZE operates within the regulatory framework of the United Arab Emirates, which establishes legal protections relating to labour rights, ethical business conduct, and responsible sourcing of precious metals. The Company ensures that its operations comply with the following key regulatory requirements:

UAE Labour Law

Promise Gold Refinery FZE complies with the provisions of the UAE Labour Law governing employment practices, worker protections, workplace safety, and fair treatment of employees. The Company ensures that all employment relationships within its operations are lawful, voluntary, and free from any form of forced labour, bonded labour, or coercive employment practices.

Ministry of Economy Responsible Sourcing of Gold Regulations

As a gold refinery operating under the supervision of the UAE Ministry of Economy, Promise Gold Refinery FZE adheres to the requirements established under the Responsible Sourcing of Gold regulations, including Ministerial Decree No. 68 of 2024 concerning Due Diligence Regulations for Responsible Sourcing of Gold. These regulations require gold refineries and precious metals businesses to implement supply chain due diligence systems designed to identify, prevent, and mitigate risks relating to human rights abuses, labour exploitation, corruption, and illicit sourcing practices.

DNFBP Compliance Obligations

Promise Gold Refinery FZE operates as a Dealer in Precious Metals and Stones (DPMS) within the UAE's Designated Non-Financial Businesses and Professions (DNFBP) regulatory framework. As part of these compliance obligations, the Company implements internal policies, risk management procedures, and due diligence controls to ensure that its business activities do not facilitate financial crime, human rights violations, or unethical practices within the precious metals sector.

5. INTERNATIONAL HUMAN RIGHTS AND RESPONSIBLE SOURCING STANDARDS

In addition to complying with UAE regulatory requirements, Promise Gold Refinery FZE aligns its policies and supply chain practices with internationally recognized human rights and responsible sourcing frameworks. These standards provide guidance on how businesses should identify, prevent, and address human rights risks within their operations and supply chains.

International Labour Organization (ILO) Conventions

The Company supports and respects the principles established under the International Labour Organization (ILO) Conventions, particularly those relating to the elimination of child labour and forced labour. Promise Gold Refinery FZE strictly prohibits the use of child labour and any form of forced or bonded labour within its operations and expects the same standards from all suppliers and supply chain partners.

United Nations Guiding Principles on Business and Human Rights (UNGPs)
Promise Gold Refinery FZE aligns its human rights commitments with the United Nations Guiding Principles on Business and Human Rights, which establish the responsibility of businesses to respect human rights and to implement systems that identify, prevent, mitigate, and address human rights impacts arising from their activities.

OECD Due Diligence Guidance for Responsible Mineral Supply Chains
The Company implements supply chain due diligence practices consistent with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas (CAHRA). This framework requires companies operating in mineral supply chains to identify and manage risks associated with human rights abuses, labour exploitation, corruption, and conflict financing.

Universal Declaration of Human Rights (UDHR)
Promise Gold Refinery FZE supports the principles outlined in the Universal Declaration of Human Rights, which establishes the fundamental rights and freedoms to which all individuals are entitled. The Company is committed to respecting these principles in its operations and ensuring that its business activities do not contribute to human rights violations.

Integration into the Company's Responsible Sourcing Framework
The principles established under these regulatory and international frameworks are integrated into the Responsible Sourcing and Compliance Framework of Promise Gold Refinery FZE. Through this integrated approach, the Company implements risk-based due diligence procedures, supplier assessments, and compliance monitoring mechanisms designed to identify, prevent, and address potential human rights risks within its operations and gold supply chain.

Promise Gold Refinery FZE demonstrates its commitment to responsible sourcing, ethical business conduct, and the protection of human rights throughout the precious metals supply chain.

6.Child Labour

Promise Gold Refinery FZE maintains a strict zero-tolerance policy toward child labour and is fully committed to ensuring that its operations and gold supply chain are free from the exploitation of children. For the purpose of this policy, child labour refers to the employment, engagement, or involvement of individuals who are below the legally permitted minimum working age as defined under applicable labour laws and internationally recognized labour standards. Child labour also includes any form of work performed by children that is hazardous, harmful to their physical or mental health, or that interferes with their education, development, or overall well-being.

Child labour may include, but is not limited to:

- the employment or engagement of individuals below the legal working age as defined by applicable labour laws and international labour standards;
- work performed by children that is dangerous, physically demanding, or exposes them to hazardous conditions, including exposure to chemicals, heavy machinery, explosives, unsafe mining environments, or other harmful activities commonly associated with mining and mineral processing;
- activities that interfere with a child's ability to attend school, receive education, or participate in normal childhood development; and
- the use of children in illegal, exploitative, or coercive labour practices within mining, transportation, trading, or processing of precious metals.

Promise Gold Refinery FZE strictly prohibits the use of child labour within its operations, facilities, and business activities, and requires all employees, contractors, and business partners to comply with this prohibition at all times. Given the nature of the precious metals industry and the risks associated with certain mining environments, the Company also extends this prohibition across its upstream gold supply chain. Promise Gold Refinery FZE will not knowingly purchase, process, or trade gold that is sourced from mining operations or supply chain activities that involve child labour.

As part of its responsible sourcing framework, the Company implements risk-based supply chain due diligence procedures designed to identify and mitigate the risk of child labour within its sourcing activities. These measures may include:

- supplier due diligence and background assessments;
- verification of supply chain documentation and origin declarations;
- supplier declarations confirming compliance with child labour prohibitions;
- enhanced due diligence for suppliers operating in Conflict-Affected and High-Risk Areas (CAHRA); and
- ongoing monitoring of suppliers through audits, site visits, or third-party assessments where appropriate.

Where credible evidence or reasonable suspicion of child labour is identified within the Company's supply chain, Promise Gold Refinery FZE will take appropriate corrective actions. Such actions may include enhanced due diligence, supplier engagement and remediation measures, suspension of transactions, or termination of the business relationship where the supplier fails to address the issue in accordance with responsible sourcing standards.

Promise Gold Refinery FZE seeks to ensure that the gold processed within its refinery is sourced responsibly and that its operations do not contribute to the exploitation of children within the precious metals supply chain.

7.PROHIBITION OF FORCED OR BONDED LABOUR

Promise Gold Refinery FZE maintains a strict zero-tolerance policy toward forced labour, bonded labour, and all forms of involuntary or exploitative labour practices. The Company is committed to ensuring that all work performed within its operations and throughout its gold supply chain is conducted on a voluntary basis and in full compliance with applicable labour laws and internationally recognized human rights standards.

Forced labour refers to any work or service that is extracted from an individual under the threat of penalty, coercion, intimidation, deception, or abuse of power, and for which the individual has not offered themselves voluntarily. Such practices violate fundamental human rights and are strictly prohibited by Promise Gold Refinery FZE.

Accordingly, the Company strictly prohibits the following practices within its operations and supply chain:

Forced Labour

Any form of labour performed involuntarily under threat, coercion, intimidation, or manipulation is strictly prohibited. Workers must not be compelled to work through threats of violence, withholding of wages, restriction of movement, or any other form of coercive control.

Bonded Labour and Debt Bondage

Promise Gold Refinery FZE strictly prohibits bonded labour and debt bondage arrangements where individuals are required to work in order to repay debts or financial obligations. Workers must never be placed in situations where they are forced to continue employment due to outstanding loans, recruitment fees, or other financial arrangements.

Human Trafficking
The Company strictly prohibits any involvement in human trafficking, including the recruitment, transportation, transfer, harbouring, or receipt of individuals through coercion, deception, or abuse of vulnerability for the purpose of labour exploitation.

Involuntary Prison Labour
Promise Gold Refinery FZE does not permit the use of involuntary prison labour within its operations or supply chain. Any labour performed by incarcerated individuals must be voluntary, lawful, and conducted in accordance with applicable regulations and human rights protections.

Retention of Workers' Identity Documents
The confiscation or retention of workers' personal identity documents, passports, work permits, or other personal belongings by employers, recruiters, or supervisors is strictly prohibited. Workers must retain control of their own identity documents at all times.

Freedom of Movement and Employment
Workers must always have the freedom to leave their employment voluntarily and without fear of penalty, retaliation, or coercion. Employees must not be restricted from leaving the workplace, changing employers, or terminating their employment in accordance with applicable labour laws and contractual arrangements.

Promise Gold Refinery FZE requires all employees, contractors, suppliers, mining partners, traders, logistics providers, and other business partners within its gold supply chain to adhere to these principles and to ensure that their operations are free from forced or bonded labour practices.

As part of its responsible sourcing and supply chain due diligence framework, the Company conducts risk-based assessments of suppliers and business partners to identify potential risks of labour exploitation. These due diligence measures may include supplier declarations, contractual commitments, background checks, supply chain assessments, and enhanced monitoring of suppliers operating in Conflict-Affected and High-Risk Areas (CAHRA).

As part of its responsible sourcing and supply chain due diligence framework, the Company conducts risk-based assessments of suppliers and business partners to identify potential risks of labour exploitation. These due diligence measures may include supplier declarations, contractual commitments, background checks, supply chain assessments, and enhanced monitoring of suppliers operating in Conflict-Affected and High-Risk Areas (CAHRA).

Promise Gold Refinery FZE seeks to ensure that all labour associated with its operations and supply chain is conducted in a lawful, voluntary, and ethical manner that respects the rights and dignity of workers throughout the precious metals supply chain.

8. RESPONSIBLE SUPPLY CHAIN STANDARDS

Promise Gold Refinery FZE recognizes that the upstream precious metals supply chain may present elevated risks relating to human rights violations, child labour, forced labour, bonded labour, and unsafe labour practices, particularly in mining environments where regulatory oversight may be limited or labour protections may be weak. As part of its commitment to responsible sourcing and ethical business conduct, the Company implements a risk-based supply chain assessment process designed to identify, evaluate, and mitigate potential human rights risks associated with the sourcing, transportation, and trading of gold.

Promise Gold Refinery FZE recognizes that the upstream precious metals supply chain may present elevated risks relating to human rights violations, child labour, forced labour, bonded labour, and unsafe labour practices, particularly in mining environments where regulatory oversight may be limited or labour protections may be weak. As part of its commitment to responsible sourcing and ethical business conduct, the Company implements a risk-based supply chain assessment process designed to identify,

evaluate, and mitigate potential human rights risks associated with the sourcing, transportation, and trading of gold. Promise Gold Refinery FZE monitors the following risk indicators when evaluating suppliers and sourcing activities:

Conflict-Affected and High-Risk Areas (CAHRA)
Gold sourced from regions identified as Conflict-Affected and High-Risk Areas (CAHRA) may present increased risks of human rights abuses, labour exploitation, and governance challenges. Suppliers operating in or sourcing from such regions are subject to heightened scrutiny and enhanced due diligence procedures.

Artisanal and Small-Scale Mining (ASM)
Artisanal and small-scale mining environments may present risks relating to child labour, unsafe working conditions, informal labour arrangements, and limited regulatory oversight. Where gold originates from ASM sources, the Company undertakes additional verification measures to ensure that mining activities are conducted responsibly and without labour exploitation.

Countries with Weak Labour Protections
Suppliers operating in jurisdictions where labour laws are inadequately enforced or where worker protections are weak may present elevated risks of forced labour, bonded labour, or exploitative employment practices.

Undocumented or Informal Mining Operations
Mining operations that lack proper licensing, regulatory oversight, or legal documentation may present significant human rights risks. Such operations may also be associated with illegal mining, unsafe working conditions, or the use of child labour.

Informal Gold Trading Networks
Supply chains involving informal trading networks, undeclared intermediaries, or unverified gold aggregators may increase the risk of human rights violations and supply chain opacity. These networks may obscure the true origin of gold and make it difficult to verify compliance with responsible sourcing standards.

Where the Company identifies suppliers or transactions that present elevated risks of human rights violations, Promise Gold Refinery FZE will implement enhanced due diligence procedures. These measures may include:

- obtaining additional documentation regarding the origin and chain of custody of the gold;
- conducting further background checks and supplier assessments;
- requiring formal supplier declarations confirming compliance with human rights standards;
- performing site visits or independent verification where appropriate;
- increasing monitoring of supplier transactions and supply chain activities; and
- engaging suppliers to implement corrective actions where risks are identified.

Suppliers classified as high-risk may be required to implement remediation measures within defined timelines. Where suppliers fail to address identified human rights risks or where credible evidence of child labour, forced labour, or bonded labour is confirmed, Promise Gold Refinery FZE may suspend transactions, terminate supplier relationships, and take appropriate actions in accordance with its responsible sourcing and compliance policies. Promise Gold Refinery FZE seeks to ensure that the gold processed within its refinery is sourced responsibly and that its operations do not contribute to human rights violations or labour exploitation within the precious metals supply chain.

9. SUPPLIER DUE DILIGENCE AND VERIFICATION

Promise Gold Refinery FZE recognizes that risks relating to child labour, forced labour, bonded labour, and other human rights violations may arise within upstream gold supply chains, particularly where sourcing involves complex networks of miners, traders, intermediaries, and transport providers. In order

to prevent the refinery from directly or indirectly supporting labour exploitation, the Company implements a robust supplier due diligence and verification process as part of its Responsible Sourcing and Compliance Framework.

This due diligence process is designed to identify, assess, and mitigate human rights risks associated with the sourcing of gold and to ensure that all suppliers comply with the Company's standards relating to ethical labour practices and internationally recognized human rights principles. The due diligence procedures are aligned with the UAE Ministry of Economy Responsible Sourcing of Gold Regulations, the OECD Due Diligence Guidance for Responsible Mineral Supply Chains, and applicable regulatory expectations governing precious metals refineries operating in the United Arab Emirates.

As part of the supplier onboarding and monitoring process, Promise Gold Refinery FZE conducts the following verification and assessment measures.

Supplier Onboarding and Know Your Customer (KYC) Verification
Before establishing any commercial relationship, the Company conducts formal onboarding procedures for all gold suppliers and supply chain partners. This includes verifying the identity, legal registration, and operational legitimacy of the supplier. The supplier onboarding process ensures that the refinery engages only with legitimate and compliant entities and reduces the risk of sourcing gold from operations associated with labour exploitation or human rights abuses.

Beneficial Ownership Verification
Promise Gold Refinery FZE verifies the ultimate beneficial ownership (UBO) of supplier entities to ensure transparency regarding the individuals or entities controlling the organization. This helps identify hidden ownership structures that may conceal unethical practices or involvement in illegal mining or labour exploitation.

Supply Chain Documentation Review
The Company reviews documentation relating to the origin, chain of custody, and transportation of gold supplied to the refinery. This may include mining permits, export documentation, supplier declarations, transport documentation, and other relevant records that verify the legitimacy of the supply chain and confirm that the gold has not been sourced through exploitative labour practices.

Site Visits and On-Site Assessments
Where necessary, particularly for suppliers operating in higher-risk jurisdictions or mining environments, Promise Gold Refinery FZE may conduct site visits or on-site assessments to verify working conditions, labour practices, and operational activities. These site assessments may be conducted by internal compliance personnel or qualified independent auditors where appropriate.

Supplier Self-Declarations and Human Rights Commitments
Suppliers are required to provide formal self-declarations confirming compliance with the Company's Human Rights Policy, including commitments that their operations do not involve child labour, forced labour, bonded labour, human trafficking, or other forms of labour exploitation. These declarations form part of the contractual obligations between the supplier and Promise Gold Refinery FZE. In addition to these onboarding measures, the Company conducts ongoing monitoring and periodic reassessment of supplier relationships to ensure continued compliance with human rights standards. Suppliers identified as presenting elevated risks may be subject to enhanced due diligence measures, including additional documentation review, increased monitoring, independent audits, or corrective action plans.

Where credible evidence of child labour, forced labour, bonded labour, or other human rights violations is identified within the supply chain, Promise Gold Refinery FZE will take appropriate corrective actions. These may include requiring supplier remediation measures, suspending transactions, terminating the supplier relationship, or reporting the matter to relevant authorities where required. Promise Gold Refinery FZE seeks to ensure that the gold processed within its refinery is sourced

responsibly and that its operations do not contribute to or benefit from labour exploitation or human rights violations within the precious metals supply chain.

10. GRIEVANCE MECHANISM

Promise Gold Refinery FZE recognizes that an effective grievance mechanism is a critical component of ensuring respect for human rights and identifying potential risks relating to child labour, forced labour, bonded labour, labour exploitation, and unsafe working conditions within its operations and gold supply chain. Accordingly, the Company has established a formal grievance mechanism that enables employees, suppliers, contractors, supply chain partners, community members, and other stakeholders to raise concerns or report suspected violations in a safe and confidential manner. This Human Rights Policy is directly linked to the Company's Grievance and Whistleblowing Mechanism, which provides a structured process through which stakeholders may report concerns relating to labour practices, workplace conditions, supply chain misconduct, or other violations of responsible sourcing standards.

Stakeholders may submit grievances relating to issues such as:

- the use of child labour within mining or supply chain activities
- the presence of forced labour, bonded labour, or debt bondage
- human trafficking or labour exploitation within supplier operations
- unsafe or hazardous working conditions affecting workers
- violations of human rights or ethical labour practices within the precious metals supply chain

Promise Gold Refinery FZE ensures that grievances can be submitted through multiple accessible reporting channels, including direct reporting to the Compliance Department, grievance hotlines, written submissions, or confidential reporting channels established by the Company.

All grievances received under this mechanism are handled in accordance with the following principles:

- Confidentiality : All complaints and reports are treated with strict confidentiality. Information relating to grievances will only be shared with authorized personnel responsible for reviewing and investigating the matter.
- Prompt Investigation: All reported concerns will be reviewed promptly and investigated through a structured and impartial process conducted by the Compliance Department or designated investigators. The objective of the investigation is to determine the facts of the matter and identify appropriate corrective actions where necessary.
- Protection from Retaliation :Promise Gold Refinery FZE strictly prohibits retaliation, intimidation, discrimination, or adverse action against any individual who raises concerns or reports suspected violations in good faith. Individuals who report concerns related to child labour, forced labour, or other human rights violations will be protected from retaliation in accordance with the Company's whistle-blower protection framework.

Where grievances indicate credible risks relating to human rights violations or labour exploitation within the supply chain, the Company may implement appropriate corrective actions, including enhanced supplier due diligence, remediation measures, suspension of transactions, or termination of supplier relationships where necessary. Promise Gold Refinery FZE seeks to ensure that human rights concerns are identified and addressed promptly, thereby strengthening transparency, accountability, and responsible business conduct within its operations and the broader precious metals supply chain.

11. INCIDENT REPORTING AND INVESTIGATION

Promise Gold Refinery FZE is committed to ensuring that any concerns relating to human rights violations, child labour, forced labour, bonded labour, labour exploitation, or unsafe working conditions within its operations or supply chain are promptly identified, documented, and addressed through a structured and transparent process**.** Where allegations, complaints, or credible indications of human rights violations arise, the Company will implement a formal incident reporting and investigation

procedure in order to assess the situation, determine the validity of the concern, and take appropriate corrective measures where necessary. All incidents relating to potential human rights violations must be formally recorded in the Company's Incident Reporting Register, which is maintained by the Compliance Department. The register will document key details of the incident, including the nature of the allegation, the parties involved, the source of the complaint, the date of reporting, and the status of the investigation.

Upon receiving a report or identifying a potential incident, Promise Gold Refinery FZE will initiate an internal investigation process. This process may include the review of relevant documentation, interviews with affected individuals or witnesses, verification of supplier information, and assessment of working conditions where applicable. Investigations will be conducted in a fair, objective, and confidential manner by the Compliance Department or other designated personnel with appropriate authority. Where investigations confirm or indicate the presence of human rights violations, the Company will take appropriate corrective and remedial actions. Such actions may include requiring suppliers to implement corrective measures, conducting enhanced due diligence, suspending or restricting transactions with the supplier, or terminating the business relationship where the supplier fails to address the identified issues.

In situations where the incident involves serious human rights violations or presents significant legal, ethical, or reputational risks, the matter may be escalated to Senior Management for further review and decision-making. Where required by applicable laws or regulatory requirements, the Company may also report the matter to relevant authorities. Promise Gold Refinery FZE ensures that all human rights concerns are properly documented, assessed, and addressed in a manner that promotes accountability, transparency, and responsible sourcing within the precious metals supply chain.

12. CORRECTIVE AND REMEDIAL ACTIONS

Promise Gold Refinery FZE is committed to ensuring that any identified risks or violations relating to child labour, forced labour, bonded labour, human trafficking, labour exploitation, or unsafe working conditions within its operations or supply chain are addressed promptly and effectively. Where investigations or due diligence processes identify credible evidence of such violations, the Company will implement appropriate corrective and remedial actions to mitigate risks and prevent the continuation of unethical practices. The objective of these actions is to ensure that the Company's operations and sourcing activities do not contribute to or benefit from labour exploitation or human rights abuses within the precious metals supply chain. Where non-compliance or violations are identified, Promise Gold Refinery FZE may take one or more of the following measures:

Supplier Remediation Plans

The Company may require the supplier to develop and implement a corrective remediation plan designed to address the identified human rights risks or violations. Such plans may include measures to eliminate child labour or forced labour practices, improve labour conditions, strengthen internal controls, and ensure compliance with responsible sourcing standards.

Enhanced Monitoring and Due Diligence

Suppliers presenting elevated human rights risks may be placed under enhanced monitoring, including additional documentation review, supply chain verification, site assessments, or periodic compliance evaluations to ensure corrective actions are effectively implemented.

Suspension of Transactions or Purchases

Where significant risks or violations are identified, the Company may temporarily suspend the purchase or processing of gold from the supplier until the identified issues are satisfactorily addressed and verified.

Termination of Supplier Relationships

If a supplier fails to implement corrective measures, refuses to cooperate with remediation efforts, or is found to be directly involved in serious human rights violations such as child labour or forced labour, Promise Gold Refinery FZE may terminate the contractual relationship and cease all commercial transactions with the supplier.

Notification of Relevant Authorities

Where the identified violations involve illegal activities or serious breaches of labour or human rights laws, the Company may notify or cooperate with relevant regulatory or law enforcement authorities in accordance with applicable legal and regulatory obligations. Promise Gold Refinery FZE seeks to ensure that labour exploitation is not tolerated within its operations or supply chain and that appropriate actions are taken to promote ethical and responsible sourcing practices throughout the precious metals industry.

13. EMPLOYEE TRAINING AND AWARENESS

Promise Gold Refinery FZE is committed to ensuring that employees involved in procurement, compliance, supply chain management, and operational oversight are adequately trained to identify and address risks relating to human rights violations, child labour, forced labour, and bonded labour within the precious metals supply chain. The Company provides periodic training and awareness programs to relevant employees to ensure they understand the principles of responsible sourcing, applicable human rights standards, and the Company's internal policies and reporting procedures. Training programs are designed to enable employees to identify potential human rights risks, recognize indicators of child labour or labour exploitation within supplier operations, and understand the appropriate procedures for reporting and escalating such concerns. These training initiatives also cover the Company's supply chain due diligence requirements, risk assessment processes, and grievance reporting mechanisms, ensuring that employees are equipped to detect and address potential risks at an early stage. Training records and attendance logs are maintained by the Compliance Department as part of the Company's compliance documentation and may be reviewed during internal audits or regulatory inspections. Through continuous training and awareness, Promise Gold Refinery FZE seeks to strengthen its responsible sourcing framework and ensure that employees actively support the prevention of labour exploitation within the Company's operations and supply chain.

14. MONITORING AND COMPLIANCE

Promise Gold Refinery FZE has established a structured monitoring and compliance framework to ensure the effective implementation of this Human Rights, Child Labour, and Forced/Bonded Labour Policy across its operations and supply chain. The Compliance Department is responsible for overseeing the implementation of this policy and ensuring that all relevant departments, employees, and supply chain partners adhere to the human rights standards established by the Company. As part of its oversight responsibilities, the Compliance Department conducts periodic monitoring activities designed to identify potential risks relating to child labour, forced labour, bonded labour, labour exploitation, and unsafe working conditions within the Company's supply chain. These monitoring activities are integrated into the Company's broader Responsible Sourcing and Supply Chain Due Diligence Framework.

Monitoring procedures may include, but are not limited to, the following activities:

Review of Supplier Due Diligence Records

The Compliance Department periodically reviews supplier onboarding documentation, due diligence records, supplier declarations, and supply chain verification documents to ensure that suppliers continue to meet the Company's human rights and responsible sourcing requirements.

Review of Grievances and Incident Reports

Grievances, complaints, and incident reports relating to labour practices or human rights concerns are reviewed by the Compliance Department to determine whether further investigation or corrective action is required.

Periodic Compliance Reviews and Internal Audits

The Company may conduct periodic internal compliance reviews, supply chain assessments, or targeted audits to evaluate adherence to this policy and identify areas where additional controls or corrective actions may be necessary.
The findings from these monitoring activities are documented and reported to Senior Management for review. Where monitoring activities identify potential violations or areas of concern, the Company will implement appropriate corrective or remedial measures in accordance with its responsible sourcing and compliance procedures. Promise Gold Refinery FZE seeks to ensure continuous oversight of its operations and supply chain, thereby strengthening the Company's commitment to preventing labour exploitation and upholding internationally recognized human rights standards within the precious metals industry.

15. RECORD KEEPING

Promise Gold Refinery FZE maintains comprehensive and accurate records to support the effective implementation and monitoring of this Human Rights, Child Labour, and Forced/Bonded Labour Policy. Proper record keeping enables the Company to demonstrate transparency, accountability, and compliance with applicable regulatory requirements and responsible sourcing standards governing the precious metals sector.

The Compliance Department is responsible for ensuring that all relevant documentation relating to human rights due diligence and supply chain monitoring is properly maintained and readily available for review during internal compliance assessments, external audits, or regulatory inspections.

Promise Gold Refinery FZE maintains records relating to the following areas:

Supplier Due Diligence Documentation

Records relating to supplier onboarding, Know Your Customer (KYC) verification, beneficial ownership verification, supplier declarations, contractual commitments, and other documentation supporting the evaluation of supplier compliance with the Company's human rights standards.

Human Rights Risk Assessments

Documentation relating to supply chain risk assessments, including evaluations of geographic sourcing risks, identification of potential human rights concerns within mining environments, and assessments of suppliers operating in Conflict-Affected and High-Risk Areas (CAHRA).

Grievance Reports and Complaints

Records of grievances, complaints, or reports received through the Company's grievance or whistleblowing mechanisms relating to labour practices, human rights concerns, or unsafe working conditions.

Investigation Records and Corrective Actions

Documentation relating to incident investigations, findings of compliance reviews, supplier remediation plans, corrective actions implemented, and decisions taken in response to identified human rights risks.

Employee Training and Awareness Records

Training materials, attendance records, and documentation relating to employee awareness programs covering human rights risks, responsible sourcing obligations, and reporting procedures. All records maintained under this policy will be retained in accordance with applicable regulatory requirements and the Company's internal record retention procedures. These records may be reviewed by authorized personnel during internal compliance reviews or made available to relevant regulatory authorities, auditors, or supervisory bodies where required. Promise Gold Refinery FZE ensures that its responsible sourcing framework remains transparent, auditable, and aligned with internationally recognized human rights standards.

Human Rights Risk Indicators in Gold Supply Chains

Risk Indicator	Description	Potential Risk
Sourcing from Conflict-Affected and High-Risk Areas (CAHRA)	Gold originating from regions experiencing armed conflict, political instability, or weak governance.	Increased risk of human rights abuses, forced labour, or child labour in mining operations.
Artisanal and Small-Scale Mining (ASM) Operations	Gold sourced from informal or small-scale mining sites that lack formal labour oversight.	Higher likelihood of child labour, unsafe working conditions, and labour exploitation.
Lack of Transparent Supply Chain Documentation	Suppliers unable to provide verifiable documentation regarding the origin of gold or mining operations.	Risk of concealed labour violations or illegal mining practices.
Use of Labour Brokers or Informal Recruitment Agents	Workers recruited through third parties without clear employment contracts.	Risk of forced labour, debt bondage, or human trafficking.
Withholding of Worker Identification Documents	Workers' passports or identity documents retained by employers or labour agents.	Indicator of forced labour or worker coercion.
Workers Paying Recruitment Fees	Workers required to pay fees to obtain employment or secure mining jobs.	Risk of bonded labour or debt-related labour exploitation.
Excessive Working Hours or Unsafe Conditions	Mining operations where workers perform extremely long shifts or work without safety equipment.	Risk of labour exploitation and violation of labour rights.
Presence of Child Workers at Mining Sites	Evidence or reports of individuals below legal working age participating in mining activities.	Child labour risk in gold extraction or processing.
Remote or Informal Mining Locations	Mining operations located in isolated areas with limited regulatory oversight.	Increased risk of labour abuse and lack of worker protection.
Unregistered Mining Operations	Gold sourced from mining sites operating without government permits or oversight.	Risk of illegal mining and labour exploitation.
Lack of Worker Contracts or Employment Records	Workers employed without formal contracts or documentation of employment conditions.	Increased vulnerability to labour abuse and exploitation.
Community Complaints or Reports of Abuse	Allegations raised by workers, local communities, NGOs, or media regarding labour violations.	Indicator of possible human rights violations within the supply chain.
High Labour Turnover at Mining Sites	Frequent replacement of workers or unstable workforce conditions.	Potential sign of poor labour conditions or exploitation.
Armed Groups or Security Presence at Mining Sites	Evidence of armed groups controlling mining operations or transport routes.	Risk of forced labour, conflict financing, or worker coercion.
Restricted Worker Freedom of Movement	Workers unable to freely leave mining sites or employment locations.	Indicator of forced labour or coercive employment practices.

16. POLICY REVIEW

This Human Rights, Child Labour, and Forced/Bonded Labour Policy shall be reviewed at least once annually or earlier where necessary to reflect changes in applicable laws, regulatory requirements, industry standards, or the operational activities of Promise Gold Refinery FZE. The Compliance Department is responsible for coordinating the review process and assessing whether updates are required to ensure the policy remains aligned with the UAE Ministry of Economy Responsible Sourcing of Gold regulations, applicable labour laws, and internationally recognized human rights standards. Any proposed amendments or revisions to this policy must be reviewed and formally approved by the Senior

Management of Promise Gold Refinery FZE prior to implementation. Once approved, the updated policy will be communicated to relevant employees, suppliers, and stakeholders to ensure continued awareness and compliance.

17. REVISION RECORD

Version	Date	Section Revised	Description of Change	Approved By
1.0	2024	Initial Release	First issuance of the Human Rights, Child Labour and Forced/Bonded Labour Policy in line with responsible sourcing and human rights standards.	Senior Management
2.0	2025	Full Policy Review	Policy updated and strengthened to align with **Ministerial Decree No. 68 of 2024 on Responsible Sourcing of Gold**, international human rights standards, and internal compliance framework updates.	Senior Management / Compliance Officer

18. POLICY APPROVAL AND SIGN-OFF

This Human Rights, Child Labour and Forced/Bonded Labour Policy has been reviewed and approved by the Senior Management of Promise Gold Refinery FZE. The policy reflects the Company's commitment to upholding internationally recognized human rights standards and ensuring that its operations and supply chain are free from child labour, forced labour, bonded labour, and other forms of labour exploitation. The policy forms an integral part of the Company's Responsible Sourcing and Compliance Framework and shall be implemented across all departments and business activities of Promise Gold Refinery FZE. All employees, suppliers, contractors, and business partners are required to adhere to the principles and requirements set forth in this policy. The Compliance Department is responsible for overseeing the implementation, monitoring, and periodic review of this policy to ensure continued alignment with applicable regulatory requirements and international standards.
